Pediatric Cardiac Genomics Consortium: CHD GENES

F101 Pedigree Questions, version 09/24/10 (A)

INSTRUCTIONS: We'll start by drawing a family tree. Then we have some questions about your medical history and the medical history of your relatives. Let's begin.

NOTE: IF RELATIVE IS DECEASED, USE *PAST TENSE TEXT* INCLUDED.

1. Is this relative alive? **IF DECEASED, SKIP TO b.**

   a. How old is he/she? **SKIP TO #2.**

   b. How old was he/she when he/she died?

   c. What was the cause of his/her death?

2. Was this relative born with a heart problem or heart defect? Or, was this relative diagnosed with a heart problem when he/she was under 30 yrs old?

   a. **IF YES TO EITHER**: What heart problem or heart defect does/*did* he/she have? Any other heart problems or defects? (REFER TO THE CARDIAC CODE LIST)

3. Does/*Did* this relative have any other birth defect, such as cleft lip or palate or spina bifida?

   a. **IF YES**: What birth defect does/*did* he/she have? Any others?
   (REFER TO THE BIRTH DEFECT CODE LIST)

4. Does/*Did* this relative have a genetic disorder such as Down syndrome?

   a. **IF YES:** What condition does/*did* he/she have? Any others?
   (REFER TO THE IDENTIFIED GENETIC SYNDROMES CODE LIST)

5. Does/*Did* this relative have developmental problems (for example, delays in learning to sit, walk, or talk), learning disabilities or attend special school?

   a. **IF YES:** Was there a diagnosis? What was the diagnosis? Any others?
   (REFER TO THE DEVELOPMENTAL DELAY/LEARNING DISABILITY CODE LIST)

NOTE: IF RELATIVE IS SUBJECT'S MOTHER ASK #6; OTHERWISE PROCEED TO NEXT RELATIVE

6. Are you and your (Are/*Were the mother and the*) child's biological father related by blood?

   a. **IF YES**: What is your (What is their/*What was their*) relationship?
   (REFER TO THE FAMILY MEMBER CODE LIST)
